

Welcome to the HUSQVARNA VIKING® family and to our Swedish values of world-class capability, convenience and innovation.

Creative Capability:

- Computerized sewing machine with functions that save time and make sewing easy.
- 20 built-in stitches including quilting, utility and decorative stitches; plus, two one-step buttonholes, that are ideal for creative projects. Adjust stitch width up to 7mm.
- Adjustable presser foot pressure will let you sew any fabric type and weight with perfect results.
- Adjustable thread tension is easy to adjust for special threads and techniques.

Modern Convenience:

- Compact and lightweight at just 15 lbs (7kg) – perfect for travel and classes.
- Start/Stop button lets you sew without the foot control.

- Speed Control Slide makes it easy to adjust the speed for greater control.
- Needle Stop Up/Down sets the needle to stop up or down for pivoting, appliqué and accurate sewing.
- Extra-High Presser Foot Lift raises the presser foot to its highest position so that thick fabrics and multiple layers can be placed effortlessly under the presser foot.
- Built-in Needle Threader makes threading easy.
- Feed Teeth Lever makes it simple to lower the feed teeth for stippling, free-motion sewing and button sewing.

Inspiring Innovation:

- Easy stitch selection is a time-saver! Stitch length and width are automatically set. Settings can quickly be adjusted for specific techniques or fabrics.
- The handy FIX function immediately stops sewing and ties off for secure seams and a neat finish for decorative stitches.

Sometimes you like to pick up and sew.

Use decorative stitches in your favorite colors to make this beautiful bag!

Piece with excellent results and appliqué with a beautiful finish!

Piecing done differently! Go to www.husqvarnaviking.com to find instructions for the sewing projects.

More features
